Program Description (written by Provider) <p>Totem Learning Center is a leading provider in multi-sensory, systematic, explicit and science-based educational instruction for students at all levels and provides instruction in literacy, mathematics, and cognitive processing skills.</p>	
Evidence of Effectiveness (written by Provider) <p>At Totem, we benchmark our student 3 times a year at their grade level in reading and math fluency, written expression, comprehension and spelling using AIMS web. We then progress monitor students at their ability level for every 10-15 hours of instruction they receive in a given area. This ensures that students are making gains and responding to the individualized instruction they receive at Totem.</p>
